PART-1-Executive Summary

SCOPE

We have conducted the internal audit assignment of **Directorate of Employment & Craftsmen Training (STRIVE)** in terms of the appointment letter issued to us. The time period covered by the audit is from 1st October'2019 to 31st March'2020. Audit procedures performed are designed to evaluate the adequacy, efficiency and effectiveness of the Company's internal control processes.

SOURCES OF INFORMATION

Audit work was conducted on the basis of enquiry, observation, confirmation and verification of supporting documentation and identified processes.

It is an inherent limitation that accounting and internal control systems cannot provide management with conclusive evidence that objectives are reached due to the following reasons:

- **There is a potential human error due to carelessness, distraction, mistakes of judgments and misunderstanding of instructions.**
- **The possibility that a person responsible for exercising an internal control could abuse that responsibility.**
- **That possibility of circumventing of internal controls through the collusion of a member of management or an employee inside or an outside entity**
- **The possibility that the procedures may become inadequate due to changes in conditions, and compliance with the procedures may deteriorate.**

MANAGEMENT RESPONSIBILITIES IN TERMS OF GOVERNANCE, RISK AND CONTROLS

Management is responsible for the establishment and maintenance of effective systems of governance to:

- **Promote appropriate ethics and values within the department;**
- **Ensure effective organizational performance management and accountability;**
- **Communicate risk and control information appropriate areas in the department; and**

::2::

- **Coordinate the activities of and communication of information by external and internal auditors and management.**

Management is further responsible for the establishment and maintenance of an effective system of internal control and risk management. The objectives of the system of internal control are, inter alia, to provide management with reasonable, but not absolute, assurance that:

- **Objectives are achieved;**
- **Financial and operational information are reliable;**
- **Operations and programs are effective and efficient;**
- **Assets are safeguarded;**
- **Laws, regulations, policies, procedures and contracts are complied with; and**
- **Risks are identified, appropriate risk responses selected, communicated and managed.**

The principal safeguard against fraud, misstatement and irregularities is an effective system of internal control. It must, however, be recognized that there are inherent limitations in any system of internal control including management override, human error and circumventions through collusion. The prevention and detection of fraud is therefore management's responsibility. Management representations made are considered to form part of our audit evidence. Any management representations will be accepted on face value and in good faith. We will not perform detailed procedures to verify the accuracy, validity or completeness of the representations.

APPRECIATION

We thank the management for their cooperation in conduct of this audit. Should there be any clarifications the management is free to revert to us.
